TRACEABILITY BY TATONKA – TRANSPARENCY CREATES TRUST

We are convinced that transparency is part of our social responsibility. That is why we disclose all stages of the manufacturing and transport process of our products.

On our **Traceability website**, you can trace the path of every Tatonka product from the purchase of materials to production and shipping to the country of destination by means of the serial/batch number. We show who supplied the materials for the products, where the product was sewn and which transport routes and modes of transport were used until the finished product reached its destination

Due to our own production, we have access to all information concerning the production process. We collect and manage all the data ourselves and use it to clearly **trace the supply chain for every Tatonka product**.
